Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

How To Remove A Mazda

The easiest way to do this is to slide the seats all the way back, find the two front bolts, and use a 14mm Socket wrench to remove them. Next slide both seat forward as far as they can go, and lean the back of the seat forward as well. Find the two bolts and remove them as well.

How to Remove MAZDA 5 Seats : 4 Steps - Instructables

Use a trim removal tool to pop the trim cover behind the door handle so you can remove the screw there. Remove the Phillips head screw from the armrest. Starting at the bottom of the door panel, gently (but firmly) pull the door trim from the bottom and pop it out of its clips, working up.
