A unit of measurement is a standardised quantity of a physical property, used as a factor to express occurring quantities of that property. Units of measurement were among the earliest tools invented by humans. Primitive societies needed rudimentary measures for many tasks: constructing dwellings of an appropriate size and shape, fashioning clothing, or bartering food or raw materials.

Unit of measurement - Wikipedia

Walter Arnold Kaufmann (July 1, 1921 - September 4, 1980) was a German-American philosopher, translator, and poet.A prolific author, he wrote extensively on a broad range of subjects, such as authenticity and death, moral philosophy and existentialism, theism and atheism, Christianity and Judaism, as well as philosophy and literature.He served more than 30 years as a professor at Princeton ...
