If you're trying to check if someone is 18 years of age, using `timedelta` will not work correctly on some edge cases because of leap years. For example, someone born on January 1, 2000, will turn 18 exactly 6575 days later on January 1, 2018 (5 leap years included),

Acces PDF Q Solution 3rd Ed

but someone born on January 1, 2001, will turn 18 exactly 6574 days later on January 1, 2019 (4 leap years included).
