Stuttering Foundations And Clinical Applications The Allyn ...

Stuttering runs in families, and this is true of the type of stuttering (persistent and recovered). Genetics plays a role in developmental stuttering, but environmental factors are also important influences in whether or not stuttering will occur. Quite likely, persistency requires additional genetic factors.

Stuttering Unit 2 Flashcards | Quizlet

stuttering might develop and/or is maintained, and all provide reasonable accounts for how stuttering develops and is maintained. However, except for the Riley and Riley revised component model, all of the models described above lack sufficient structure and organization that precludes clinical application when collecting and interpreting assess-
