FRAMINGHAM, Mass., August 25, 2020 - Global spending on artificial intelligence (AI) is forecast to double over the next four years, growing from \$50.1 billion in 2020 to more than \$110 billion in 2024. According to the International Data Corporation Worldwide Artificial Intelligence Spending Guide, spending on AI systems will accelerate over the next several years as organizations deploy ...

Worldwide Spending on Artificial Intelligence Is Expected ...

On September 9 th, the President issued Executive Order 14042, which applies new rules - including vaccination mandates - to federal contractors. This rule is different and separate from (and stricter than) the OSHA rule that applies to large businesses; specifically, because this federal contractor mandate does NOT include a weekly testing option, and therefore is a true vaccination mandate.
