Thought bubbles are used in two forms, the chain thought bubble and the "fuzzy" bubble. The chain thought bubble is the almost universal symbol for thinking in cartoons. It consists of a large, cloud -like bubble containing the text of the thought, with a chain of increasingly smaller circular bubbles leading to the character.

Speech balloon - Wikipedia

Language may shape our thoughts. When the Viaduct de Millau opened in the south of France in 2004, this tallest bridge in the world won worldwide accolades. German newspapers described how it ...

Why Language May Shape Our Thoughts - Newsweek

For a long time, the idea that language might shape thought was considered at best untestable and more often simply wrong. Research in my labs at Stanford University and at MIT has helped reopen this question. We have collected data around the world: from China, Greece, Chile, Indonesia, Russia, and Aboriginal Australia.

HOW DOES OUR LANGUAGE SHAPE THE WAY WE THINK? | Edge.org

Drawing on our experiences we must contemplate the original theory that language shapes thought. The hypothesis introduced by Benjamin Whorf, which is known as the Sapir-Whorf hypothesis or linguistic determination has stood the test of time and is a beginning to any debate about language and thought.
