Purina's dog treats are made with wholesome ingredients and include dog-favorites like dog chews, jerky strips, dental chews and more. Explore them all here.

Dog Treats | Purina

Overfitting is a common explanation for the poor performance of a predictive model. An analysis of learning dynamics can help to identify whether a model has overfit the training dataset and may suggest an alternate configuration to use that could result in better predictive performance. Performing an analysis of learning dynamics is straightforward for algorithms that learn incrementally ...
